THE OKTOBER FEST

SUPERIOR EDUCATIONAL SOFTWARE

YOU GET A CHANCE FOR A FREE TRIP TO MUNICH A N D alot of GREAT ENTERTAINMENT with these amazing programs offered for different micro-computer systems. A clever combination of historical facts and games! The three following diskette formats already available are:

systems	languages	dos and memory requirements	diskette size & format	startup procedure
APPLE II	Applesoft & machine code	DOS 3.3 48 K	5 1/4" 143 K 16 sectors/t	self booting
	High resolution graphics, animation, sound and voice. Tourist Map, Beer Drinkers and Haunted House under control of the paddles.			menu driven 1 diskette US$ 37.50
IBM PC	Basica & machine code	DOS 1.1 64 K	5 1/4" 160 K single sided	easy setup instructions
	To be independent from all the different DOS and Basica versions already on the market, these diskettes DO NOT contain the system software. But it is easy to create a selfbooting version! Graphics resolution (medium or high) is selected automatically upon system configuration during startup. Animation, sound effects, and paddle control similar to APPLE II version.			menu driven 2 diskettes US$ 43.50
8080 Z80 based	machine code	CPM 2.0 up 48 K	8" 256 K 3740 IBM standard	log on to preferred drive
	With additional text sections and sophisticated text graphics! Data base may be modified with standard CPM text editor or word processor! For the Tourist Map a separate program MODIFMAP allows updating of the random access file.			menu driven 1 diskette US$ 32.50

foreign orders, please add US$ 7.50 for shipping

An exiting software package for every art, action and game fan! Students will love it as an entertaining introduction to German History! Here are details from the perfectly structured menus :

historical facts	founding of Munich - middle ages - age of the kings - Baroque, Rococo, Jugendstil - industrial revolution - the World Wars - post war period - today
